2.) Application is User story -tests generator, Add a button option to Generate Feature file for the user stories

Prompt for vibe coding -

Act as a 9+ year full stack developer

[SRICTLY] Read my entire workspace and understand how UI implemented in the frontend folder

[SRICTLY] Read my entire workspace and understand how backend is implemented in the folder

[MANDATORY] I want feature file button on UI so that i can generate feature file for my user story

[MUST] Establish connection with user story and feature file

The screenshot shows a web browser window with the address bar displaying 'localhost:5173'. The main heading of the application is 'User Story to Tests', with a subtitle 'Generate comprehensive test cases from your user stories'. The form contains the following fields and buttons:

- Jira Issue Key:** A text input field containing 'US-18'. To its right is a blue button labeled 'Fetch from Jira'.
- Populate the form from a Jira issue before generating test cases.** (Instructional text)
- Story Title *:** A text input field containing 'Consultant Dashboard My Appointments'.
- Description:** A text area containing 'As a user, I want to consultant dashboard my appointments so that the related functionality works as expected.'
- Acceptance Criteria *:** A text area containing 'As a user, I want to consultant dashboard my appointments so that the related functionality works as expected.'
- Additional Info:** A text input field containing 'Type: Story | Priority: P2'.
- At the bottom of the form are two blue buttons: 'Generate' and 'Generate Feature File'.
